

PROFILE

My career has progressed with the largest commercial radio stations in Britain, working with the biggest entertainment brands. My passion for design and development is infectious and I like to take the lead in incorporating and promoting new designs, developments and technologies.

My strength lies in usability design and can take these creatives and build websites to W3C standards using a variety of different languages including XHTML, CSS, JQuery, Flash AS2 and PHP.

I now use my experience to manage the production of award winning creative sites to strict deadlines.

PROFESSIONAL

Head of interactive commercial production Nov 09 – Present Global Radio

In my latest role as the Head of the commercial interactive production team, I have built a team and oversee and project manage all of Global's commercial sites. A highlight includes:

Be a star – A flagship site in conjunction with Windows 7 and Capital Fm's Jingle Bell Ball.

Feedback from Paul Davis – Head of Microsoft Europe, Marketing:

"This is great and really appreciate how quickly the team has turned this around, awesome."

Alongside my management responsibilities, I was asked to launch a facebook style Intranet for Global Radio, feedback has been positive, especially the CEO's:

Stephen Miron – Global Radio CEO:

"Brilliant job Ashley you should be very proud. It's absolutely awesome."

Ashley Tabor – Global Radio CEO and Founder:

"You should be proud of yourself; you have done something immense for the future of the company."

Lead Designer and Developer Jan 08 – Nov 09 Global Radio

Designed and built sites using latest technologies, social media and Content Managed Sites. Completed projects from start to finish, to tight deadlines. Made sure all team projects kept to high standards and developed other team members skills. Highlights include:

Xbox lips – Designed and built an AOP and Media Week award winner

Classic Fm Hall of Fame – Self initiated project which broke traffic records

Designer and Developer Aug 04 – Jan 08 – GCap Media

Working within the design team with the biggest media brands. Designed and built many websites and games. Gained experience designing main sites and logos for Classic fm, Capital fm and Xfm
